

SUSTAINABLE PROCUREMENT POLICY

In line with the understanding of sustainable supply, our suppliers/solution partners;

- Quality Management Systems, Environmental and Occupational Health and Safety Management Systems, international
- have highly accepted environmental and sustainability labels/certificates,
- In production and supply, it does not have harmful effects on the environment, it complies with environmental legislation,
- Wildlife should be used appropriately without harming the ecosystem, and should not comply with hunting prohibitions,
- Working to minimize and manage wastewaste, offering less packaging or bulk packaging alternatives in product packaging,
- To offer alternatives such as organic, bio, vegan, untested on animals, do not contain harmful chemical components, etc., which are environmentally friendly, economical, local, ethical, recyclable or use recycled materials,
- To be a domestic and local production/service provider,
- To be a product/service that reflects/promotes the cuisine, traditions and culture of our country/region,

We give importance and convey this point of view to our denominators suppliers. Together with our procurement partners, we try to create efficient purchasing opportunities and aim to reduce the environmental effects arising from the procurement processes.
